

Zasmos Manufacturer Return Policies

Updated October 11, 2007. Return policies subject to change without notice.

Content on ZASMOS Return Policies documents is for informational purposes only.

ZASMOS is not liable for any changes made to these forms once they have been downloaded and/or printed as hard

Key :

Manufacturer Number - These four-digit numbers identify a manufacturer's specific product line with Zasmos.

One manufacturer can have multiple manufacturer numbers or product lines.

Manufacturer Name - Identifies the manufacturer name and specific product line, if applicable.

Stock Balance Days/Percent - Displays two numbers separated by a slash. The first number indicates the number of days (from purchase history) a product is returnable within stock balance guidelines. The second number indicates the percentage amount allowable to return as stock balance for that specific manufacturer number.

Defective Days/Percent - Displays two numbers separated by a slash. The first number indicates the number of days (from purchase history) a product is returnable within defective guidelines. The second number indicates the allowable percentage to return as defective for that specific manufacturer number.

Manufacturer Phone Number - Lists the manufacturer's phone number so you can contact the manufacturer directly.

If viewing this data in Microsoft Excel, please note :

This document is write-protected and can not be modified. You can find specific information by pressing the <CTRL + F> keys simulatenously. In order to SORT the information below, you must first copy and paste the information into a new, blank spreadsheet and use the DATA / SORT feature in Microsoft Excel.
